CAREER SUMMARY

To leverage my skills and knowledge in Computer Science and Engineering to contribute to innovative projects, enhance my technical expertise, and support the growth of a forward-thinking organization. I aspire to be an asset by applying my problem-solving abilities, teamwork, and technical proficiency in Java, SQL, and Web Development technologies.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java , SQL
Frameworks: Bootstrap
Developer Tools: VS Code

PROJECTS

Image Colorization using A.I | *Python, Open CV, NumPy*   *April 2022*
- Developed an AI-powered deep learning model that automatically adds color to black-and-white (grayscale) images using convolutional neural networks (CNNs). The model learns semantic color patterns from a dataset of color images and predicts realistic color values for grayscale inputs.
- Used a CNN architecture trained on large-scale datasets to learn color distributions. Implemented image preprocessing technique (grayscale conversion, normalization). Deployed a user interface to upload grayscale images and view colorized outputs in real time images.

EDUCATION

Sandip University, Nashik   Nashik, India
B.TECH in Computer Science and Engineering (CGPA: 8.11)   *Oct 2022 – June 2025*

K . K Wagh Polytechnic, Nashik   Nashik, India
Computer Technology (Aggregate: 74.97%)   *Nov 2020 – May 2022*

Samarth Arts and Science Junior College Bazar Sawangi, Aurangabad   Aurangabad, India
Computer Technology (Aggregate: 74.97%)   *June 2018 – March 2020*

ACHIEVEMENTS & AWARDS

Academics
- Completed VI week industrial at Sumago Infotech Pvt. Ltd, Nashik   *May 2021*
- Participated in National Level Technophilia at Sandip University, Nashik   *Feb 2022*
- Participated in IEEE Student Education Week, IEEE Bombay Section   *April 2024*
- Participated in "TECH-FIGHT 2025" in Project Presentation at Sandip Foundation(SIEM), Nashik   *March 2025*

Non Academics
- Badminton
- Cricket
- Carrom

LANGUAGES

- English
- Hindi
- Marathi
